## Compound by Maharam

*Compound* is an upholstery textile created by Maharam Design Studio. It has a dry neoprene-like surface enlivened by an abstract two-tone print that, depending on the colourway, is reminiscent of felt or concrete.

Tough but very flexible, *Compound* is well suited to upholstering organically shaped furniture. It comes in a palette of nineteen matte colourways. This balances neutral architectural tones, such as Espresso and moderately bright notes like Mandarin.

*Compound* is ideal for Contract environments.

### **Maharam by Kvadrat**

The longstanding partnership of Denmark-based Kvadrat and New York-based Maharam is founded on a shared philosophy of design innovation and service excellence. Leaders in their respective markets, their combined product offering represents the largest range of textiles available worldwide.

Maharam represents Kvadrat in North America while Kvadrat represents Maharam in Europe. The two companies operate joint ventures in Australia, the U.A.E. and Turkey.
